

HSE
HORTICULTURAL SINGLE ENDED

315W, 400W, 600W & 1000W HORTICULTURAL SINGLE- ENDED LAMP CONVEX PREMIUM TECHNOLOGY REFLECTOR

The HSE is the smallest sized fixture currently on the market. Ability to spread light evenly across an area makes this unique product perfect for greenhouse and supplemental lighting applications. A versatile grow light that combines the convenience and selection of widely available single-ended mogul base HID lamps with an extremely compact, economical design. The HSE has versatility right out of the box, with a 15' ballast cord for remote ballast mounting and an integral ballast mounting bracket both included standard with every unit allowing the end user installation choices without the need for additional accessories.

FEATURES

- Fine hammertone textured reflector with 95% reflectance provides even and intense light coverage
- Standard removable universal ballast bracket allows for integral or remote mounting of the ballast
- Self-leveling design makes mounting quick and easy
- Exceptional housing quality ensures reliability and durability, minimizing down time due to maintenance and cleaning.
- Convex technology precisely positions the lamp envelope just below the horizontal plane to provide more even light distribution
- Durable black powder coated finish

*Ballasts and lamps sold separately
