# VARIUS
## LED SERIES

## FOR PALLET RACK GROWERS

Powerful magnets allow the VARIUS LEDs to attach directly to pallet racking while offering red, white and blue spectral options.

**VARIUS LED** consists of single bar fixtures, each utilizing their own unique spectral distribution. VARIUS LED was specifically designed for growers using pallet racking, but its versatile design is useful for any grow application.

**3 SPECTRUMS:** Red, white and blue focused spectrums offer growers a powerful light for any stage of plant growth. Combining two or more spectrums increases intensity and spectral quality beyond the capability of standard fixed spectrum fixtures.

**MAGNET MOUNT:** Powerful magnets allow the VARIUS LED to attach directly to the pallet rack frame. Easy adjustment of bar spacing to customize light intensity and uniformity saves money on installation labor.

**CUSTOM SPACING:** Unlike standard bar systems, the VARIUS LED's magnet mounts make installation easy and allow growers to customize light coverage and intensity based on their plant's needs by easily adjusting distances between fixtures.
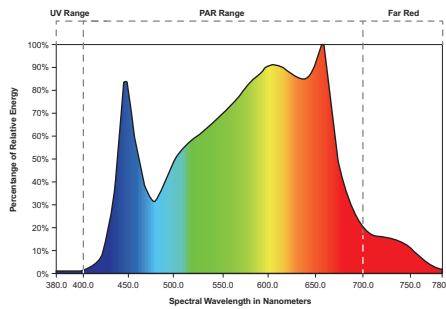

**PATENT PENDING MAGNET MOUNT**

---

# RED LED

The VARIUS RED emits a strong red spectrum with enhanced red and far red energy. The red to far red ratio combined with the proper blue to far red ratio emits a spectrum that greatly enhances flowering growth.

## ORDERING INFORMATION

| SKU | Description |
|---|---|
| AG90-R-001 | LED Light Bar, Red Flower Spectrum, 90W, 120-277VAC Input, 1-10V Dimming, Black Extrusion w/ Red End Caps and Driver Connectors, 120VAC Straight Blade Line Cord |

---

# WHITE LED

The VARIUS WHITE emits an intense full spectrum that can be used to boost PPF outputs.

## ORDERING INFORMATION

| SKU | Description |
|---|---|
| AG90-W-001 | LED Light Bar, White Full Spectrum, 90W, 120-277VAC Input, 1-10V Dimming, Black Extrusion w/ White End Caps and Driver Connectors, 120VAC Straight Blade Line Cord |

---

# BLUE LED

The VARIUS BLUE is a veg spectrum with added red energy ideal for overall plant health and light balance.

## ORDERING INFORMATION

| SKU | Description |
|---|---|
| AG90-B-001 | LED Light Bar, Blue Veg Spectrum, 90W, 120-277VAC Input, 1-10V Dimming, Black Extrusion w/ Blue End Caps and Driver Connectors, 120VAC Straight Blade Line Cord |
